

## **TransitionWorks Software now offers State and Local Government solutions**

(High Point, NC - October 6, 2010) - TransitionWorks Software offers state and local governments numerous management solutions, be it county or city jails, prison facilities, juvenile detention, evidence rooms, asset tracking, parking lot access control, or evacuation verification.

The TransitionWorks' suite of solutions provide you with the tools needed to track inmates, guards, safety equipment, personal property, and evidence room items, manage entrance control, as employee/visitor evacuation. Our software is highly configurable and can be tailored to meet the needs of your specific institution and integrate with your current infrastructure.

Monitoring an offender's behavior, posting a guard's location, documenting daily activity are all variations of data collection, which we have been automating in many leading companies for more than a decade. Many of the same technologies and concepts we've successfully implemented in the manufacturing arena can benefit state and local government. Locating inventory and checking tools in/out of a warehouse easily relates to tracking evidence or an inmate's personal property.

Demonstrations are held weekly, for more information please visit our website ([http://www.transitionworkssoftware.com/solutions/state\\_local\\_government](http://www.transitionworkssoftware.com/solutions/state_local_government)) or contact us at [info@transitionworkssoftware.com](mailto:info@transitionworkssoftware.com) or 336-885-1373.

### **About TransitionWorks Software**

TransitionWorks Software is dedicated to helping our customers improve efficiencies and simplify business processes. Since product inception in 1997, our TransitionWorks Software organization has accomplished this goal by iteratively developing, delivering and supporting a set of solutions that help simplify and automate inventory and asset tracking using many forms of Automated Identification and Data Capture (AIDC) technologies including RFID, barcodes, sensor technology, and PLC's. With proven, successful implementations world-wide, TransitionWorks' premier solutions are the system of choice for many leading companies in the world.
